LA PASSERELLE NÉGO

A WORD FROM THE PRESIDENT

JACQUES LANDRY
PRESIDENT, FPPE (CSQ)

You will find in this document the gains and concessions of a negotiation that was particularly long and confusing. At the start of the negotiations, Quebec was swimming in surpluses. But the context of the pandemic quickly changed our balance of power with a government at the height of its popularity and who was gaining time. We then spent eighteen months at the tables in front of the employers' representatives that had no significant mandate to conduct constructive talks.

It was the salary settlement for teachers of the FAE union on May 5th that put significant additional pressure on our negotiation. A confusing situation, never seen before. Admittedly, as the government had announced from the outset, teachers were one of the priority groups it had identified for a wage increase. Let us be clear here, this wage catch-up was necessary. In addition, this new information was to allow education professionals to obtain much more than what the government had offered from the beginning, that is, \$1 million a year for professional development.

The process that followed also gave us the opportunity to appreciate the positive effects of an exceptional mobilization of professionals. Never before have we been so present in the public square in both the local and provincial media.

It is your commitment to mobilization that allowed us at the end of the exercise to find a way through.

In the Conseil fédéral de négociations meeting, the representatives of the 19 unions recommended the acceptance of the Francophone agreement P1 on June 16th and the Anglophone agreement the following week. Let me remind you that on our last day of strike, June 9th, we still only had the initial monetary offer on the table and the FTQ already had its intersectoral salary regulation as of May 26th.

Given this difficult context, we are convinced that we have obtained the maximum of what the Treasury Board (omnipresent) was able to give us. Is it completely satisfactory? Certainly not for everyone, we agree.

However, a collective agreement is a construction and we sincerely believe that the table is set for the next round of negotiation. It is in this spirit that the general assemblies endorsed the agreement in all our unions. And for us, it is clear that we must not misunderstand the nuance between adherence to the results and the overall satisfaction rate with the agreement.

Objectively, we have nevertheless made significant progress on several aspects of our collective agreement while yielding very little to the employer side.

I would also like to remind you that the negotiation is unfortunately not over for all our professionals. The collective agreements in the north are still not settled for both the Cree and Kativik school boards. Strategies to revive negotiations are being put forward. They count on our support and solidarity.

This Agreement is for a period of three years, which means that we are already at the gates of the next negotiation for the renewal of our collective agreement. We will have to deposit our new demands by October 31st, 2022.

The salary issue will inevitably be at the heart of the next negotiation. You will be consulted in the spring to construct the new list of demands that will be brought to the employer.

It will be up to all of us to continue the fight for our services in a critical context of attraction and retention!

WHAT'S NEW IN THE COLLECTIVE AGREEMENT ?

Salary

- Year 1: April 1, 2020 to March 31, 2021 → 2%
- Year 2: April 1, 2021 to March 31, 2022 → 2%
